# Do

# Do

# Do

Signs may be placed on the back of stop signs

# Do

This is a custom install that can allow both visibility on both sides of the sign.

# Do

An example of signs installed back to back to create visibility on both sides.

# Do

If there is no other place to put an Alert Neighbors sign that meets regulations, an individual pole can be installed at the City of Tulsa's discretion.

# Do

Custom poles can be installed before a stop sign.

# Don't

Stop signs and speed limit signs are regulatory signs backed by federal government—only city of Tulsa engineer can override to have signs placed in these locations. You would need to contact the Engineer for approval. This takes months and most requests are denied.
